

Schedule of Events for the Master Phase and Completion/Extension of Studies – Winter Semester 2025/26

Important: Think about your Master thesis topic already at the begin of the last but one semester and contact a supervisor to discuss it

Date	Activity	Details	People	Documents
By Wed Nov 05 th	Master thesis topic and expose, research results are complete and ready for presenting in the colloquium	- The Master candidate is admitted to the Master thesis level if he/she has no more than two open modules from previous semester - The topic and expose of the Master thesis are agreed with the supervisors. Master's thesis has 2 supervisors, at least one has to be a professor from the SRH Berlin University, the other can also be from external institutions or a company. - The expose must contain the following details: i) Detailed literature review with respect to the topic, Relevance of the topic, ii) Gap of knowledge or engineering, research or engineering goals, research questions or engineering tasks, iii) Theory and definitions, iv) Methodology and Scientific or engineering tools and methods used, v) Results of the research or developed engineering. - The expose including the research results are presented in the Master's thesis colloquium which is the grade for the module "Research&Development Methods incl. Colloquium" (for Engineering programs) or "Master Project and Colloquium" (for Computer Science programs). - Registration of the thesis is only possible if the expose and colloquium is graded, and all research and data collections are finished.	First Supervisor, Candidates	Expose Master's thesis
Wed Nov 05 th	Registration date for the Master thesis	- Candidate submits the signed registration form to the examination office. - Examination office confirms the registration with the deadline for submission of the thesis on Wed Mar 04th. Please note that the minimum time for submission is 9 weeks after registration. An earlier submission is generally not possible unless the two supervisors agree and inform the exam office.
